

Barrister Announces 275 Full Time Technical Engineers Throughout USA

HAMMOND, LA – March 15, 2019 – Barrister Global Services Network, Inc. (“Barrister”), the leading woman-owned technology services provider, announced significant additions to our Full Time Technical Engineer employees. Barrister now has 275 employee technicians throughout the United States.

Debra D. Bowers, President and CEO, commented, "Our nation-wide footprint, long a hallmark of Barrister's service, has been further enhanced with significant hires of full time technical engineers located throughout the United States. Barrister now boasts 275 fully trained and industry certified engineers strategically housed throughout the United States. This added technical capacity allows us to further our investment in the customer experience. Quality, on-time, predictable and repeatable results drive customer satisfaction."

Stacey Powell, Barrister COO, added, "As our growth continues, we have committed the resources needed to accommodate increased volume and assure our quality initiative to deliver best in class service delivery. We plan to continue to make significant investments in our field service delivery organization."
